

Winery Solutions

Whether it is the processing room, the tasting area, or outdoor entertainment, we have a full offering of wiring devices that will provide reliable connections, increase safety, and improve productivity in your facility.

The Processing Area

Pin & Sleeve Devices and Safety Disconnect Switches

Watertight and designed to withstand the rigors of harsh processing environments

Get notified before a device failure and reduce unplanned downtime

In addition to local LED indicators, remote monitoring allows for 24/7 access to device data, such as:

- Liquid accumulation
- Enclosure temperature and humidity
- Line- and load-side voltage values
- Ground continuity
- And more

LEV Series
Mechanical Interlocks
