

Are you doing all you can
to keep your team safe?

Get **WISE** about Electrical Safety!

Leviton would like to invite you to enroll in

WISE Working In Safer Environments

a training initiative designed specifically to alert workers to the most common electrical hazards and the safety solutions that may be used to remedy them. This one-time, on-site seminar promises lively discussion and ensures attendees leave well-informed, with OSHA and NFPA compliance in mind.

Topics Include:

- A review of work-related electrical fatality statistics
- Ground-fault circuit interrupters — for permanent and temporary power applications
- Temporary power stringer components — common misapplications
- Wiring devices for use in wet or damp locations
- Manual motor controllers and safety disconnect switches
- Proper strain relief for flexible cord applications
