

PARADIGMTM

Shift Expectations for
Extended Distance

Reliable connectivity beyond 100 meters
for real-world deployments

What happens when 100 meters isn't enough?

Scaling stalls when networks aren't built for speed, power, or the real world.

Alter the PARADIGM™ with Copper Cabling Designed for the Edge

Perfect for outdoor IP cameras, WAPs,
and access control devices

PARADIGM™ | Shift Expectations for Extended Distance

LEVITON®

How far can PARADIGM™ go?

Speed	Max Distance
10 Mbps	275 m (902 ft)
100 Mbps	200 m (656 ft)
1 Gbps	200 m (656 ft)
2.5 Gbps	165 m (541 ft)

Complete Coverage for Every Scenario

ATLAS-X1™ SST AVAILABLE GLOBALLY

High-speed Cat 6A engineered with
extended reach for next-gen networks

PARADIGM™ AVAILABLE GLOBALLY

Purpose built Cat 6 UTP system delivering extended distance performance
for external campus environments, powered by Stadion outdoor cable

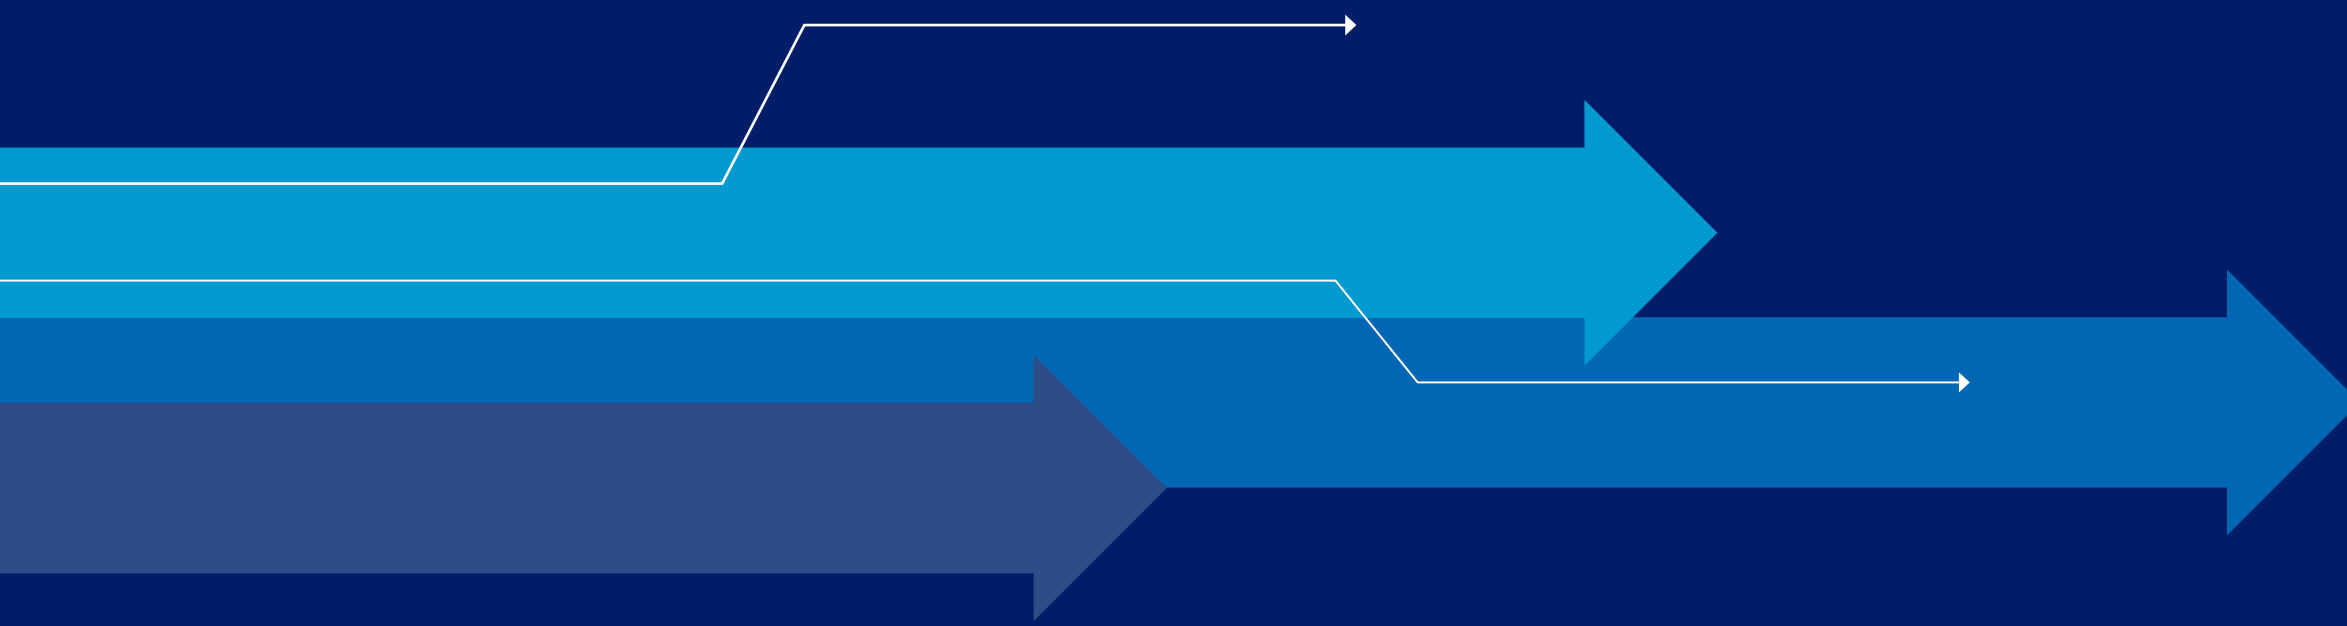

OneReach™ AVAILABLE IN NORTH AMERICA ONLY

Integrated fiber and copper solution for long-distance
connectivity and PoE support for remote devices

Connectivity Where It Counts

PARADIGM™ extended distance channels work in real-world conditions at 200 m or more
