

Better Together

The Leviton Load Center and Leviton's Wireless Structured Media Center

Future-Proof Your Homes!

Install the Leviton Load Center and take charge of your home electrical system. A sleek, modern enclosure and optional smart functionality provides homes with advanced electrical power distribution.

And when you pair the Leviton Load Center with Leviton's Structured Media Center, you ensure that your home's central distribution point for both wireless and wired networks is managed seamlessly - creating a distribution point for voice, data, audio and video applications.

Both offer easy installation and better management so that you can offer your customers a home that is prepared for the future.

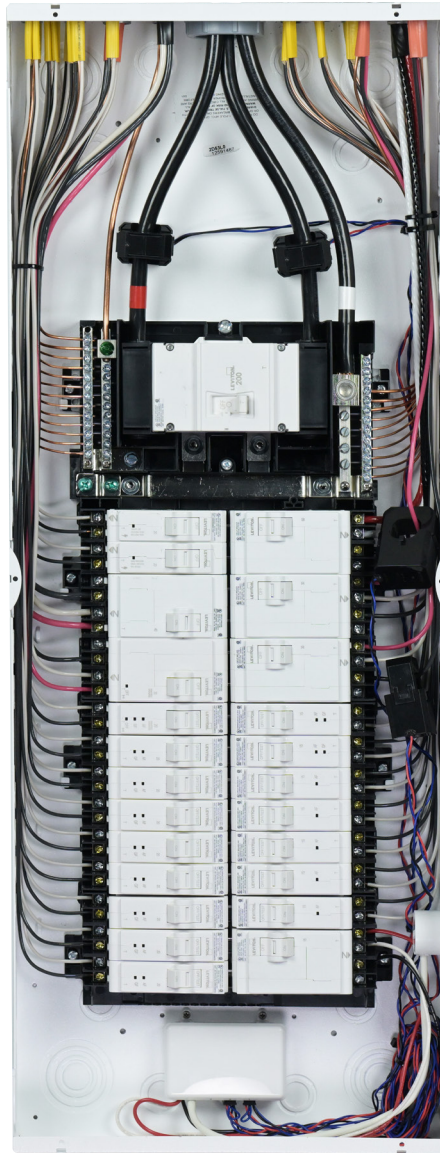

The Leviton Load Center

Intuitive LEDs communicate trip condition and type of fault (AF/GF), and remain illuminated even when tripped.

Notches for cable ties stamped into the enclosure promote secure and neat wiring.

Add an optional LWHEM and 2nd Gen Smart Circuit Breakers for real-time energy use insights, alerts, and the ability to turn breakers on or off remotely via the My Leviton app.

Surge Protective circuit breakers provide whole-panel surge protection without losing valuable spaces in the panel.

Color indicators in the handles designate operational status at-a-glance.

The Industry's Most Intelligent Residential Circuit Breaker System

Give homeowners the ability to take charge of their home electrical system by installing the award-winning Leviton Load Center. With safety features that exceed the UL Standard, intuitive LED diagnostics, optional smart functionality, and a sleek, modern enclosure, the Leviton Load Center takes managing the home electrical system to the next level.

Leviton Structured Media Center

Tri-Plane Heat Dissipation

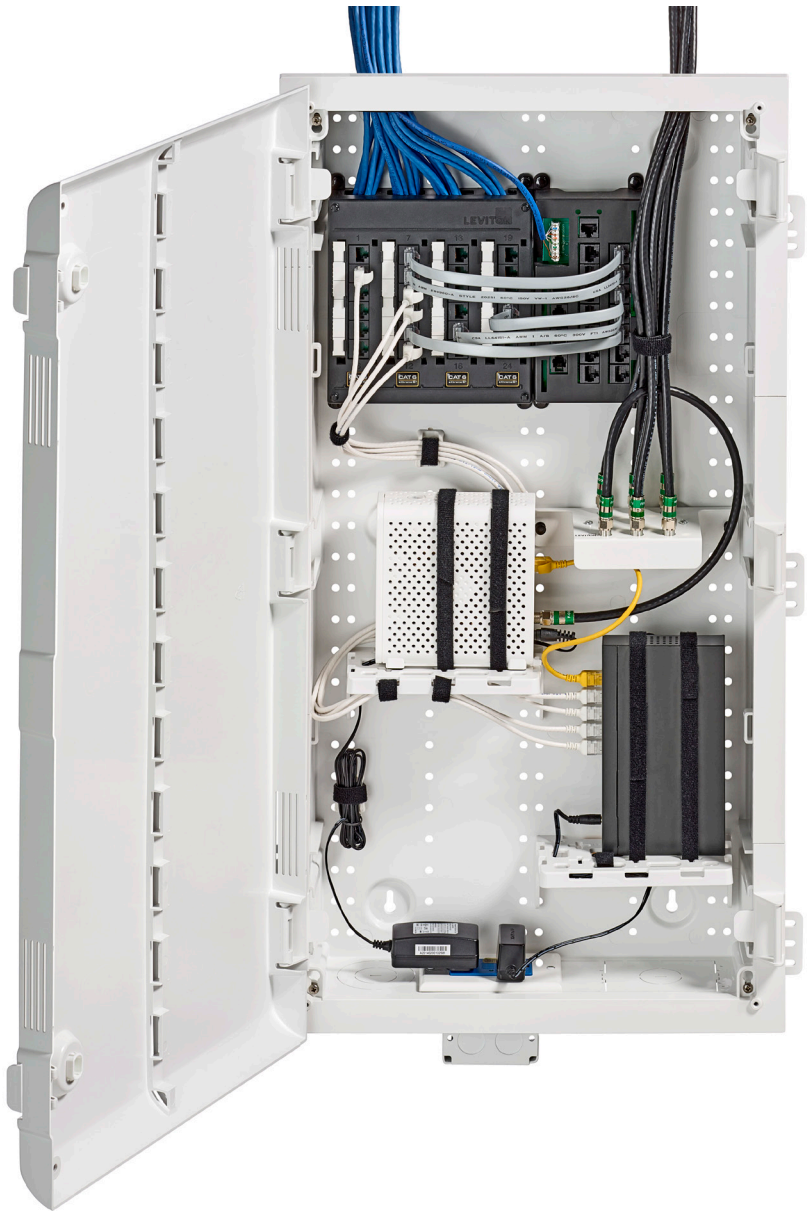

The Vented Door promotes better intake of cool air and outward flow of warm air, maximizing performance and extending the life of active equipment.

Industry Leading Capacity

Enclosures have more cubic inches than other options on the market when used with the Vented Door.

Ratcheting Hinge & Latch System

The system creates fast, tool-free door installations, and the ratcheting feature accommodates for wall imperfections and varying thickness of drywall.

The Hub of Wired and Wireless Network Infrastructure

Internet-connected devices now permeate all areas of residential dwellings. As a result, homeowners require a stronger wireless and wired network infrastructure. The Leviton Structured Media Center provides the ideal central distribution point to manage both wireless and wired networks. Streamline installations, outfit the home with core network connectivity, and add space to allow for power support, active equipment, and more.
